# Stand and deliver

*For Alex Leuzinger, Founding Partner of STUDIOFORMA, the best way to define luxury is to bring it to life. By Stevie King*

Established in 2002, STUDIOFORMA is the culmination of a fourteen-year wanderlust journey of two aspiring architects, Alex Leuzinger and Miriam Vázquez. A kindred spirit comradeship; joining forces with a choice team of commissioning architects and product designers, has certainly paid dividends for the design duo; resulting in the creation of an award-winning consultancy with hands-on expertise across the full architectural and design spectrum.

## LIFESTYLE ARCHITECTS

The agency is responsible for the 'conceptual' creation and implementation of a number of headline commercial and residential properties in Europe, the Caribbean and the

Middle East, as well as the design and build promotional platforms of international retail spaces for leading luxury fashion, jewellery and watch brands.

## PREMIUM DESIGN VALUES

Agency abilities and core competences are based on a proficiency and expertise for delivering tailored architectural and interior solutions. The company's ultimate aim however, is to deliver design-driven outcomes that match the needs of a discerning and affluent clientele.

## THE ACCOLADE

Voted "Europe's Best Interior Design 2015/16" at the International Property Awards – for a stunning residential home in Switzerland; the award-winning property sports sophisticated Italian design aesthetics coveted by Italian high-fashion brands Bottega Veneta, Brioni and Salvatore Ferragamo, clearly depicting the owner's personal sartorial style.

## SUPREME COASTAL LIVING

STUDIOFORMA's bespoke home design projects can be sampled in some of the world's most desirable locations, coastal and lakeside destinations, meshing modernist-style architecture with selective materials and textures for the perfect blend of indoor-outdoor living.
